Certification, Licensure & High-Stakes Testing

About Us

We are a company of professionally trained proctors who work with any remote testing model. We have our own platform but frequently proctor on other platforms - many developed by testing organizations or clients. We believe that proctoring powered by human intelligence blends the best test taker experience with the highest level of security.

Why MonitorEDU?

- Proctoring is made simple, and done professionally by actual humans
- Leadership team has been in the industry since 2008
- Two camera options (webcam & mobile)
- Two proctors at all times (one on each camera - for high stakes testing)
- Able to proctor on government clouds
- No integration required (but is an option)
- Our Accomodations Team is trained in special education and disabilities
- For a quick view of our process, please scan the QR Code

24 Hour Testing

- Test 24 hours, Seven Days a Week
- Group Scheduling Available
- No Risk of Biometric or AI Bias

Proctoring

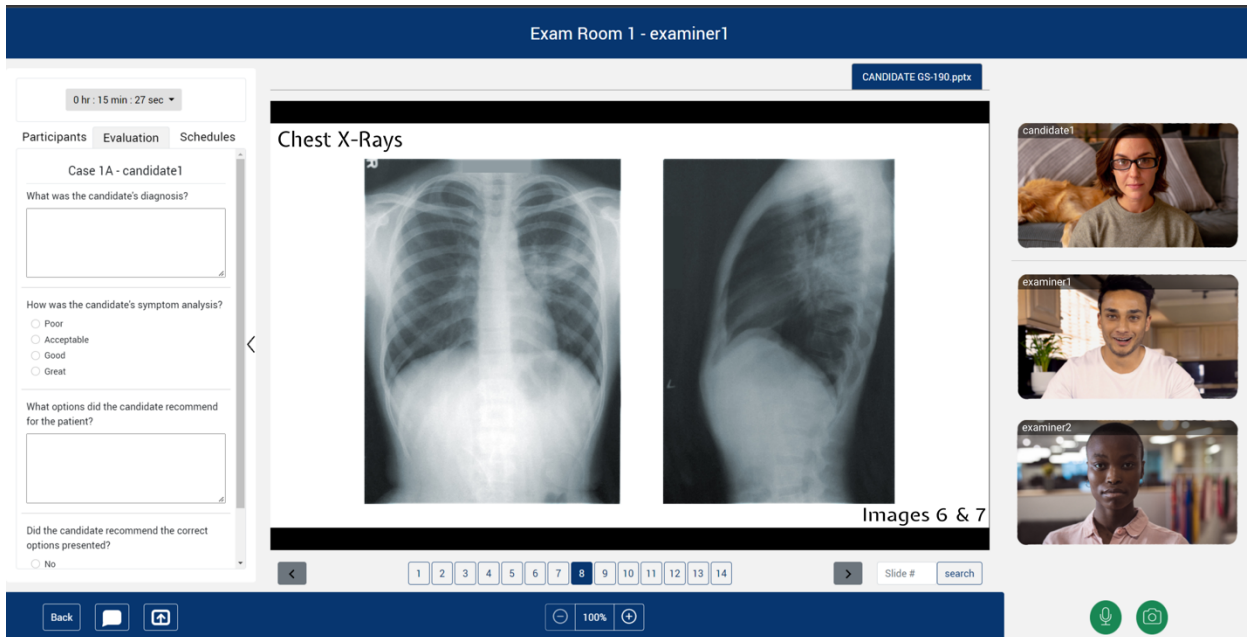

- Record & Review Options
- Live Proctoring Options
- Blended Testing
- Oral Examinations

Company Vision

- USA based business with proctors across North America
- Proctoring available in English, Spanish, French & ASL

SECURE ONLINE ORAL EXAMINATIONS

Featuring:

- **Knock™** oral examination platform, used to administer thousands of medical specialty board oral exams.
- Integrated live remote proctoring, assessments, secure waiting rooms, video recording, and **Concierge™** assistance.
- **Command Center™** for test-day management, dynamic technical support, and board member oversight of the testing event.
